<p>RAILWAY STATION</p> <p>Karlovac</p>	<p>Remediation and adaptation of damp walls of the chapel</p>

«INA NAFTAPLIN» Šubićeva 29	Remediation of concrete manholes and pumping stations for the groundwater sections Jasenovac–Novska–Kozarice Remediation of the underground gallery Construction maintenance of an office building Remediation of the external plateau Remediation of external and internal dilatation of the object from precipitation, surface and groundwater Floor coatings anti-dust for the air conditioning chamber and machine room Epoxy floor protection
«INA» Urinje	Remediation of the swimming pool for neutralization
«PLITVICE NATIONAL PARK»	 Remediation of wastewater tanks Remediation of filter plants Remediation of rainwater leakage from the parking to the kitchen restaurant Waterproofing and thermal insulation of the object
HOTEL «METEOR» Makarska	Waterproofing and thermal insulation of the terrace and balcony with Stigoelast Remediation of leaking flat roofs with Stigoelast Remediation of the pool with Stigovez and Stigoelast
HOTEL «SOLINE» Brela	Remediation of the swimming pool
HOTES «BABIN KUK» Dubrovnik	Remediation of the swimming pool

SPORTS CENTER «MLADOST» RO Zagreb	Remediation of the water- polo pool Remediation of the small pool Waterproofing of the flat roof Remediation of the compensation pool
SPORTS CENTER «ŠALATA»	Remediation of water leakage in to the premises Adaptation of ice rink icing systems
SLJEME – UPPER STATION ROPEWAY	Waterproofing and thermal insulation of the terrace and object
SHOOTING RANGE «OBOJ»	Adaptation and isolation of the shooting range
BOWLING ALLEY «LOKOMOTIVA» Trnje	Adaptation and isolation of the bowling alley
SPORTS CENTER «ŠKRLJČEVA»	Adaptation and insulation of the hall, sanitary facilities and sauna
SHOOTING RANGE CLAY PIGEONS Obrež	Insulation works
HEALTH CENTER «PEŠČENICA»	Construction maintenance and insulation of regional clinics and the Health Center
FARM Zdenčina	Remediation of walls and silage silos

«VINDIJA» Varaždin	Anti-acid protection of floors and walls in the facility
«MODEKS» Čakovec	Remediation of the roof
HOTEL «GACKA» Otočac	Wastewater solution
«TROKUT» Novska	Remediation of underground water in the facility
BUS STATION Zagreb	Remediation of the cracks and underground water
COUNTY HOME OF PARLIAMENT Zagreb	Suspending the capillary moisture flow, remediation and waterproofing of walls and floors
PALACE OF JUSTICE	Remediation of the lift pit
«H E P» HC VRELO Fužine	Remediation of the engine room from water leakage
«H E P» HC TRIBALJ Crikvenica	Remediation of the walls and vaulting of the engine room
«JAMNICA» JAMNIČKA KISELICA	Testing of watertightness of rainwater, fecal and technological water Insulation of manholes and swimming pools for treatment water Remediation of manholes

«GOVERNMENT OFFICES» Opatička 8 Zagreb	Remediation of the damp walls and suspending the capillary moisture flow Injecting caverns in the walls Insulation of the basement
«BETON» Prelog	Remediation of the RC plate on the object of the new hall Insulation of the pool from the inside
«AUTOMEHANIKA» Zagreb	Remediation of cracks and protection of thermal facade
BRIDGE FRANJO TUĐMAN Dubrovnik	Hydrophobic impregnation of pillars with Stigokrem
«BREGI» ZONE 2 AND ZONE 5 Zaprešić	Remediation and insulation of basement walls and floors in the new residential buildings of "VEGRAD"
«PUTO» Jakuševac	Remediation of water meter shaft
«TEP» Zagreb	Insulation of the basement from the inside
«GAVRILOVIĆ» Petrinja	Flooring submergence of ATMOS bar chambers

«ZAGORSKI VODOVOD» Dubravčan, Bedekovčina, Zabok, Golubovac, Krapina	Protection of walls and bottom of the pool for drinking water from the inside
«ZAPREŠIĆ CITY GOVERNMENT» Zaprešić	Insulation of the fountain
«CROATIAN POSTAL BANK» Zagreb	Insulation of the damp walls Suspending the flow of capillary moisture in walls
«CLINICAL HOSPITAL CENTRE» Zagreb	Remediation and insulation of the neutralization pit
«PREDIONICA» Zagreb	Remediation and insulation of straight roofs
RESTAURANT «OKRUGLJAK» Zagreb	Remediation and insulation of damp walls
«H E P» CHE Fužine	Remediation and insulation of the underground staircases and sanitary facilities
«HAMBY» Zagreb	Remediation and insulation of damp walls
«INSURANCE ZAGREB» Zagreb	Remediation and insulation of the ceiling panels leaking of the large hall

«PRIGORJE PLAN» Zagreb	Waterproofing of balconies and loggias
«POLYCLINIC MIHANOVIĆ» Zagreb	Remediation of joints of the ceramic pool for therapy
«HIDREL» Zagreb	Sealing and putty dilatation
«SLAVONSKA BANKA – HYPO BANKA» Zagreb	Remediation and insulation of the walls and basement
«INFODOM» Zagreb	Insulation of concrete superstructures before stone tiling Hydrophobicity of stone
«SRIJEM COUNTY PALACE» Vukovar	Remediation and insulation of the walls and floors
«CITY MUSEUM » Đakovo	Remediation and insulation of the brick walls
«RIBNJACI» Poljana	Insulation of concrete chambers on the eel farm

«CASTELLUM» Zagreb	Remediation of leaks in underground garages Remediation and insulation of the damp walls Suspending the capillary moisture flow
BUILDING CROATIAN BANK FOR RECONSTRUCTION AND DEVELOPMENT (HBOR) Zagreb	Insulation of concrete bundwall for the oil separator tanks
ES «MEČEČANI»	Insulation of the basement area
«CHROMOS» Zagreb	Remediation and insulation of the plateau at the liquid point of departure Making of epoxy floors
«H E P» HE VRELO Fužine	Remediation and insulation of the open concrete channels
«HOTO VILE» Sv. Nedjelja	Insulation of the external and internal concrete fountains
«HINA» Zagreb	Remediation and insulation of the damp basement walls
SCHOOL OF PUBLIC HEALTH «A. ŠTAMPAR» Zagreb	Suspending the capillary moisture flow Remediation and insulation of the damp walls
«MIERS» Zabok	Insulation of the concrete separator Sealing water penetration

RESIDENTIAL AND BUSINESS BUILDING «MEGRAD» Zagreb	Remediation of leakage into the underground garage space
RESIDENTIAL AND BUSINESS BUILDING «SOKOL MARIĆ» Zagreb	Remediation and insulation of the damp walls Sustaining the capillary moisture flow
«DALEKOVOD» Zagreb	Insulation of floors Making of epoxy floors
«H E P» HE VINODOL Tribalj	Remediation of leaks and insulation of concrete lining of the engine room
«AGRAM» Zagreb	Remediation of leaks, sealing of water penetration and insulation of concrete underground garage spaces
«IGH» Zagreb	Remediation of leaks, sealing of water penetration and insulation of concrete underground garage spaces
RESIDENTIAL AND BUSINESS BUILDING «BIJENIK» Zagreb	Sustaining the capillary moisture flow in brick walls
«SIGMA CENTAR» Zagreb	Insulation of concrete underground garages on residential and business buildings S ₁ and S ₂

«HŽ» ADMINISTRATIVE BUILDING Zagreb	Ssuspending the capillary moisture flow Insulation of the basement spaces Hydrophobic protection of the stone sokl Anti-acid protection of external facade walls
«MINISTRY OF FINANCE» Zagreb	Ssuspending the capillary moisture flow
«BUREAU OF STATISTICS» Zagreb	Ssuspending the capillary moisture flow Insulation of external walls Hydrophobic protection of the stone sokl
PALACE «JELAČIĆ» Zagreb	Ssuspending the capillary moisture flow Hydrophobic protection of the stone tower and sokl
ES «SELSKA» Zagreb	Ssuspending the capillary moisture flow Insulation of external walls and floors
CHURCH IN ŠESTINE Zagreb	Remediation of damp foundations Ssuspending the capillary moisture flow
SHOP „MARAS“ (Illica) Zagreb	Ssuspending the capillary moisture flow Remediation of damp walls
COMPLEX TRNAS Zagreb	Balcony waterproofing with Stigoelast Bathroom waterproofing with Stigoelast
CHAPEL OF BAN JOSIP JELAČIĆ	Injecting and filling cracks in the walls and foundations with Stigovez

GLAMPING VILLAGE TERME TUHELJ	Pool waterproofing with Stigoelast Waterproofing of the splash zone and wellness facility with Stigolit and Stigoelast
